

✦ HAND-PAINTED TO REMEMBER ✦

# Introduction to Spiritual Designs

*Timeless hand-painted memorials designed uniquely for you.*

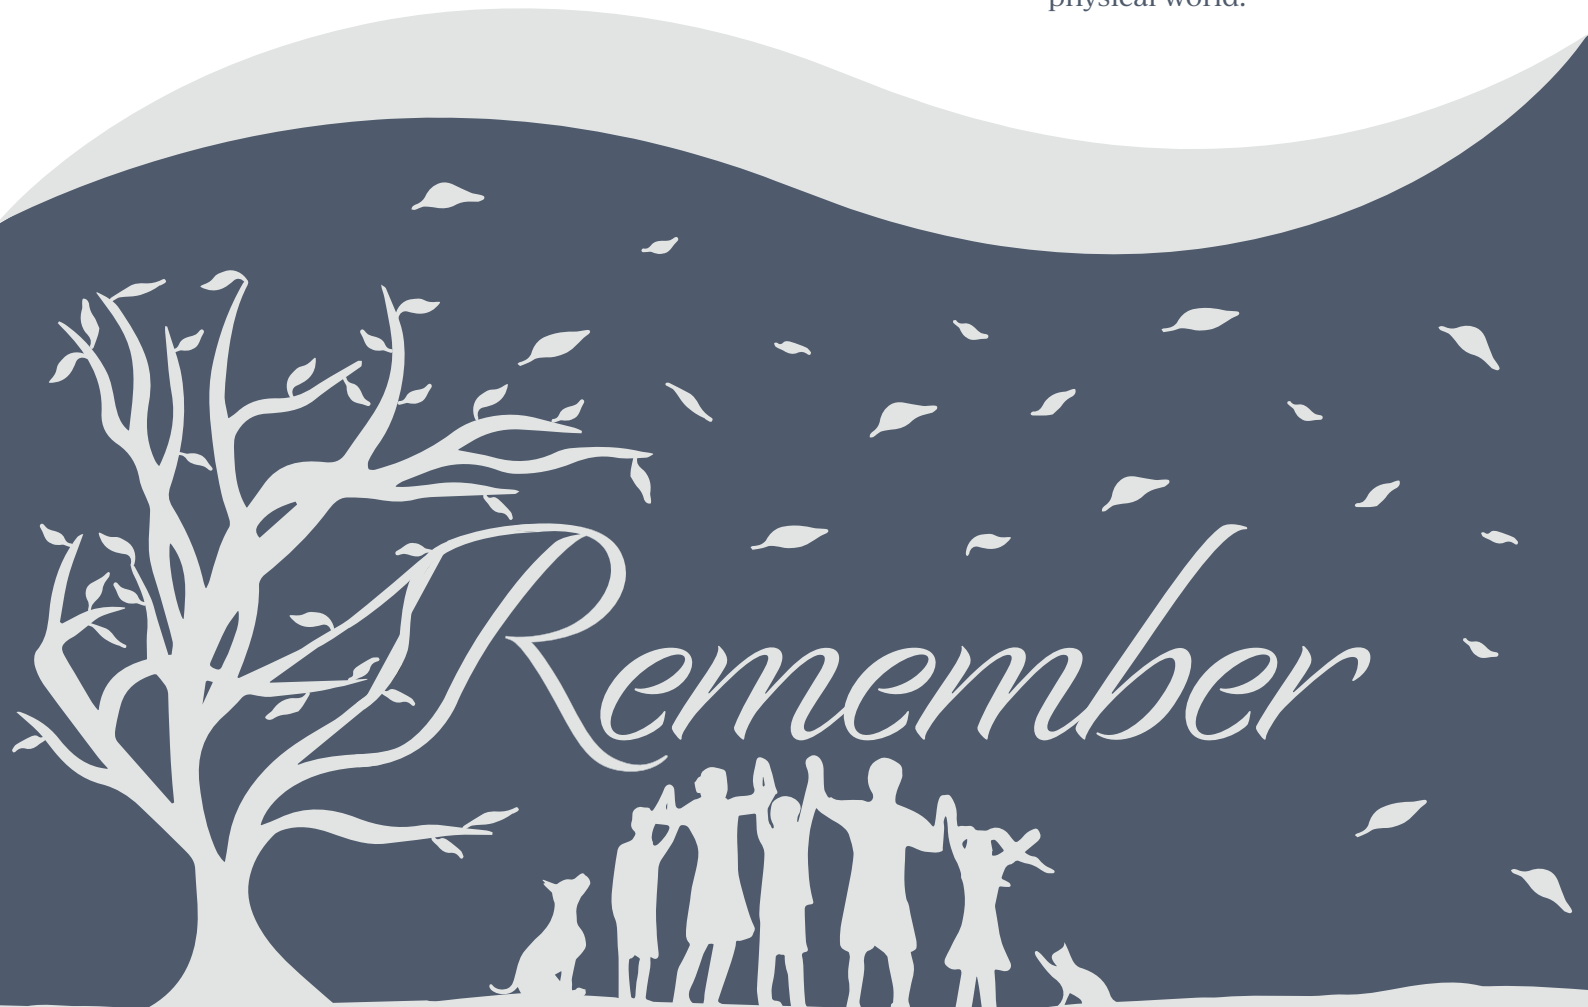

Spiritual Designs creates one of a kind custom artwork, locking in the spirit of your loved one by adding cremated ashes to the paint.

At Spiritual Designs, we aim to design unique hand-painted memorials to celebrate the life of loved ones. We understand the importance of designing something meaningful just to you. Our memorials aim to speak to you and make you feel

connected with the person who is no longer in the physical world.

Our memorials are an incredible way to remember your loved ones, even more so to include cremated ashes. It's important for anyone going through loss to find ways to remember their loved ones, even through moments of pain. This is all a part of the healing process and ensures that we are not just mourning their death, but celebrating their life too.

Work with a professional designer and artist to custom your own unique design. You will get regular updates and images of your designed artwork with the options to make any changes before any ashes are added. When it comes to finding the right artwork to commemorate loved ones, it's important to choose something that means something to you. The right piece of art needs to speak to you and make you feel connected with the person who is no longer in the physical world.

# Our Process:

We will have a chat to find out what you want and talk about some ideas. We will then send you a quote, a mood board of ideas along with some sketches.

We do request 50% of the payment upfront before any work is started.

Our designer and artists will work on the first drafts of your memorial. You will get sent an update of drawings or/and digital mockups. Keeping you updated will allow you to make any changes and watch the process of your memorial.

The next step is painting your final art piece. You will get one more update of the final design before any cremated ashes are added, to make sure you are happy with the outcome.

If you are happy with everything and the outcome of your memorial we will then request payment for your product.

Once the payment has been cleaned, the ashes are added to your memorial. A UV-inhibiting varnish is then used to finish the artwork for quality and longevity. Then it's framed and ready to be sent to you. How it will be delivered to you will be discussed at the start of the process.

We would love to hear your stories and memories. Every memorial is as unique as each individual so hearing your stories and learning about your loved ones or furry friends will help us design something that is personal to you.

Get in touch with us either by phone, email or arrange to meet in person.

**Choose from black or white.**

*Life is a Gift,  
let's celebrate it.*

**We hand wrap each of  
our memorials  
leaving a hand written  
note attached.**

# Memorial Designs

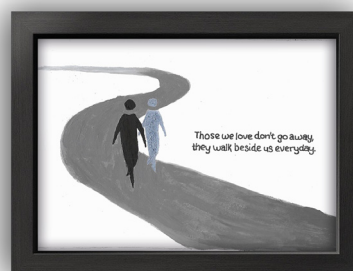

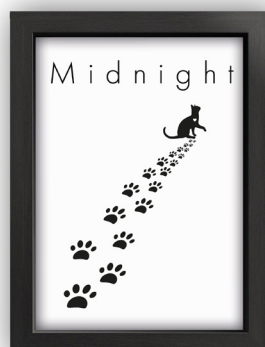

This design is in memory of a wonderful girl called Amy. She was born with Epidermolysis Bullosa and sadly passed away at the age of 10. She will always remain in the hearts of those who loved her.

Two siblings, unfortunately, lost their Mother and Grandad; the last of the Andrews. This design was a gifted surprise with both their Mother's and Grandad's ashes mixed in with the paint for the silhouetted figures.

This design is of twin sisters. Unfortunately, at the age of 16, one of the twins took her own life. Her sister asked for something that kept them together but to show the different worlds they now live in. Ashes have also been placed into one of the silhouetted figures.

# About the Founder

I have a 10 year creative background in fine art, graphic design, videography and photography.

I started Spiritual Designs because I wanted to use my skills to create meaningful work full of beauty and compassion on a spiritual level, and help bring peace to those left behind.

My partner, unfortunately, lost his mum and grandad not too long ago.

I wanted to do something special and thoughtful as a gift. He had some ashes left, so I did some research on some ideas.

That's when I came up with Spiritual Designs. I realised I could offer something unique.

I myself have lost loved ones while growing up.

My sister passed away in 2007 at the age of 10 and my grandad died in 2012. I have also lost pets, Misty the golden labrador and Tic Tac the tabby cat we took in when he was a stray kitten.

I understand the heartache and finding unique ways to remember those that are no longer with us really helps us through our grief. I want to help and support as many people as I can.
